

$$< 21 = 40 + 180 + \$500$$

High school is all about attending classes, going to Friday night's game, and hanging out with your friends. But, just remember, all of this could be taken away if you are caught drinking alcohol underage.

YOU CAN'T AFFORD THE BUZZ.

In Texas, the consequences for drinking alcohol when you are underage are serious...

- ✦ You could serve up to **40** hours of mandatory community service, lose your license for **180** days and pay fines and court costs upwards of **\$500**.
- ✦ This doesn't include the punishment from your parents, principal, or coaches.

Have fun with your friends, but remember, the price is too high.
